

Worldwide Applications

INDUSTRIAL VEHICLES

SPARE PART BUSINESS

- Customer: Dealer of 2nd hand industrial vehicles.
- Country: SPAIN.
- Application: Special Telescopic Cylinder.
- The original manufacturer of the machine quoted an abusive price for an spare cylinder to replace the damaged original one.
- LARZEP designed and produced a cylinder following the original manufacturer specifications, and at a reasonable price.
- To avoid any damage in the cylinder due to load oscillations and vibrations, REXROTH constant flow valves were installed.
